

P.O.P

PULL-OVER PROPERLY

Spec Wired, in partnership with the Ridgewood Police Department and Access Ridgewood, has organized a program designed to assist drivers with developmental disabilities.

This program aims to educate and reinforce proper behavior during a traffic stop. Participants will engage in a simulated traffic stop, where they will get personalized instruction from a Ridgewood Police officer on responding appropriately if stopped for a moving violation.

All are welcome to attend - there's no registration required.
